

PICOCLEAN NFC

No Foam Detergent Chemistry

Before using PICOCLEAN NFC

During cleaning with PICOCLEAN NFC

Oil split with PICOCLEAN NFC

-  A non-foaming aqueous chemistry for effective metal fasteners and parts cleaning that can reduce cleaning costs to less than \$0.02 per pound in industrial parts washers, such as rotary, drum, tunnel, turntable, and conveyor type parts systems.
-  A one-step, single application, heavy-duty detergent designed to remove a wide variety of extrusion oils, machine oils, drawing compounds, etc., to ensure effective cleaning of steel fasteners and related parts.
-  Offers excellent detergency, reduced maintenance downtime, low temperature, low concentration, long tank life, excellent oil rejection, and exceptional performance in one product that improves tank life and cleaning performance and eliminates additional cleaning steps.

PRODUCT FEATURES AND BENEFITS

- Optimum tank life
- Non foam generation
- Excellent oil rejection
- Economical end use cost
- Light to heavy-duty cleaning
- Excellent cleanability
- Low concentration use
- Removes stubborn soils
- Low temperature operation
- Spray or immersion applications

PICO Chemical Corporation is an ISO 9001 certified manufacturer of specialty chemicals and lubricants to clean, condition, lubricate, protect, and provide value for steel making, metalworking, metal finishing, metal processing, metal fabrication, and their related industrial applications worldwide since 1976.
